**Position on Bill at 2018**

**Session of Oregon Legislature:**

**HB 4060: Need to Reform Financial Incentives for Electric Vehicles to Remove Bias Against Small Ones; Comments on Proposed Amendments**

Dear Committee:

My testimonies on February 12 and February 21 includes photos of electric and human-electric powered vehicles, a category of vehicles must ultimately prevail in order to avoid catastrophic climate change. The Oregon Legislature is failing to provide incentives for such vehicles, instead subsidizing very large and heavy electric vehicles that will ultimately be considered energy hogs.

I offer below 16 additional photos of the sort of vehicles that the Legislature should be promoting. The first 2 photos are the Arcimoto, manufactured in Eugene.
